

About Prysm

Prysm is a leading provider of large-format Laser Phosphor Displays (LPD), known as the LPD 6K Series, and Prysm Application Suite, a cloud-based, visual collaboration solution. Prysm solutions enable individuals and teams to see and interact with all their data, content, and applications on displays of all sizes. By providing these always-on digital canvases, Prysm engages audiences, ignites innovative thinking, drives decisions, and transforms content into experiences. Customers using the LPD 6K Series benefit from interactive large-format single panel displays that offer a panoramic image uninterrupted by seams or bezels. Customers using the Prysm Application Suite software benefit from an open, enterprise-grade collaboration solution that integrates with existing tools and scales to hundreds or thousands of users.

Prysm was founded in 2005 in the Silicon Valley and has offices worldwide. Learn more at prysm.com.
