

Get to Know Your Digital Workplace Platform

Prysm's digital workplace platform is full of features to keep you productive.

DYNAMIC CONTENT

Display, resize, position and annotate streaming video, web apps, documents, presentations, images and inputs from PCs and mobile devices.

REAL-TIME, MULTI-SITE COLLABORATION

Extend the real-time collaboration experience access as many as 25 locations.

ANYWHERE ACCESS

Store your content in the cloud for access from any device or Prysm-powered display.

CAPTURE AND SHARE CONTENT

Take snapshots of your content, even video, and share it via email.

MARKUP AND ANNOTATION

Choose from multiple pen colors and stroke widths to annotate any file, browser or live source.

WHITEBOARD

Pull up a whiteboard to draw free form sketches, take notes or brainstorm.

CONTENT PERSISTENCE

Your work is saved in projects and workspaces so you can pick up where you left off at your next meeting.

FOLLOW ME

Follow me mode automatically pans the focus to the currently active content of a mirrored device or system.

WEB BROWSER

Access your web-based applications and content through the integrated web browser.

CO-BROWSING/DEVICE SHARING

Allows presenter and any participants to view and interact with the same web browser.
