

Prysm Systems X15

Application Appliance

Transform any room into an advanced collaboration center with the Prysm Systems X15 Application Appliance. When connected to any modern interactive or non-interactive display, the device opens the doors for your creative teams to work smarter, from simple in-room huddles to full-on interactive collaborations with colleagues anywhere in the world. It comes pre-loaded with Prysm Systems' digital workplace platform and the entry-level Prysm Systems Go software offers the following key features to users:

- Digital Whiteboard
- Wireless screen sharing of devices using Airplay and Google Cast

When combined with Prysm Systems' QuadLink accessory, you can:

- Share wired device content
- View Streaming video content

The Prysm Systems Go package also allows for an upgrade to the full Prysm Systems collaboration experience, requiring no additional hardware, which gives your creative teams an assortment of advanced but intuitive tools to unleash their productivity and creative potential. The X15 is easy to install with just a few quick cable connections.

Due to its open design, the Prysm Systems X15 Application Appliance can integrate with and support your existing hardware and software, allowing your teams to leverage the tools and applications they love.
