

## Prysm Display

### 1 Welcome Screen

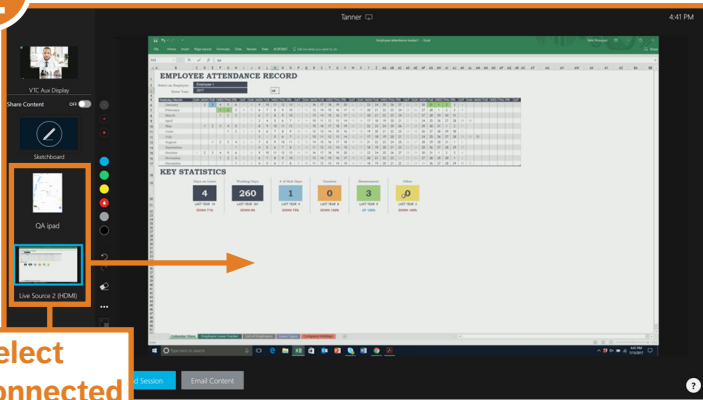

- 1 From the **Welcome** screen, you can:
- Place a call.
  - Create a sketch.
  - Share your laptop, tablet, or phone.
  - Sign in for a full collaboration experience.

To collaborate immediately without signing in, tap **Place a Call**, **Sketch**, or **Display Device**.

## In-room Collaboration

### 2 Sharing Wired or Wireless Live Sources

Select connected device to display

- 2 To share content and add notes, connect your device to the display.

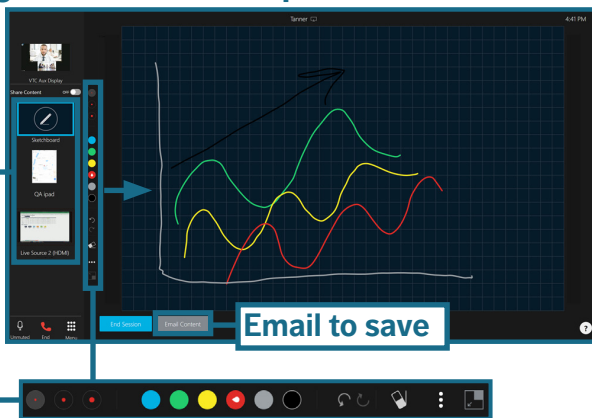

For wireless sharing, use a wireless network that can communicate with the Prysm display.

Connect as follows:

- Plug the HDMI cable connected to the display into your device.
- Use Apple AirPlay for iPhone, iPad, iPod, or Mac computers.
- Use the Cast extension from a Google Chrome browser on Windows and Mac computers.

Select a device from the list to share on your Prysm display.

### 3 Sharing Notes and Markups

Tap source or Sketchboard to display

Tap tools to add notes

Email to save

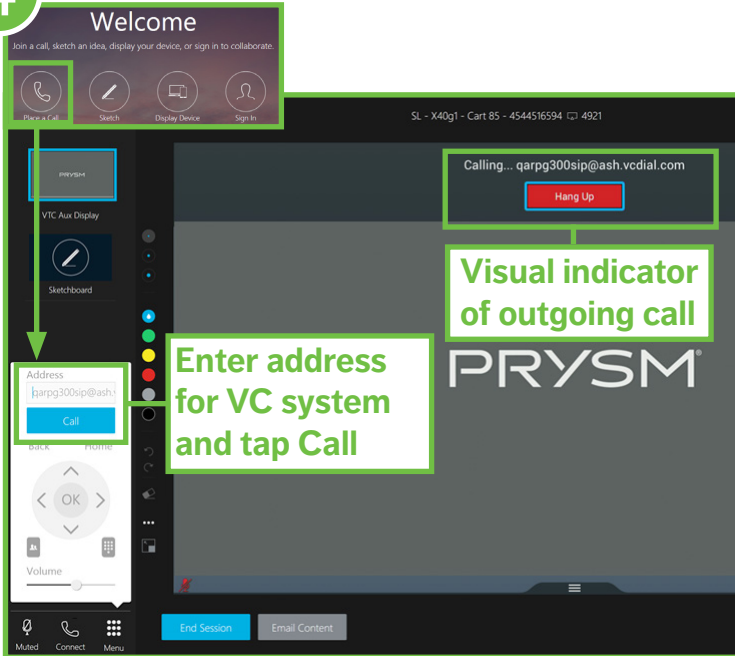

- 3 Tap the device or sketchboard that you want to display.

To add notes or markups, select a pen color and thickness. You can add notes to each source.

To save notes or markups, tap **Email Content**. Enter email addresses and tap **Send**.

## Video Conference Calls

### 4 Placing Calls

### 4

To place a call, from the **Welcome** screen tap **Place a Call**.

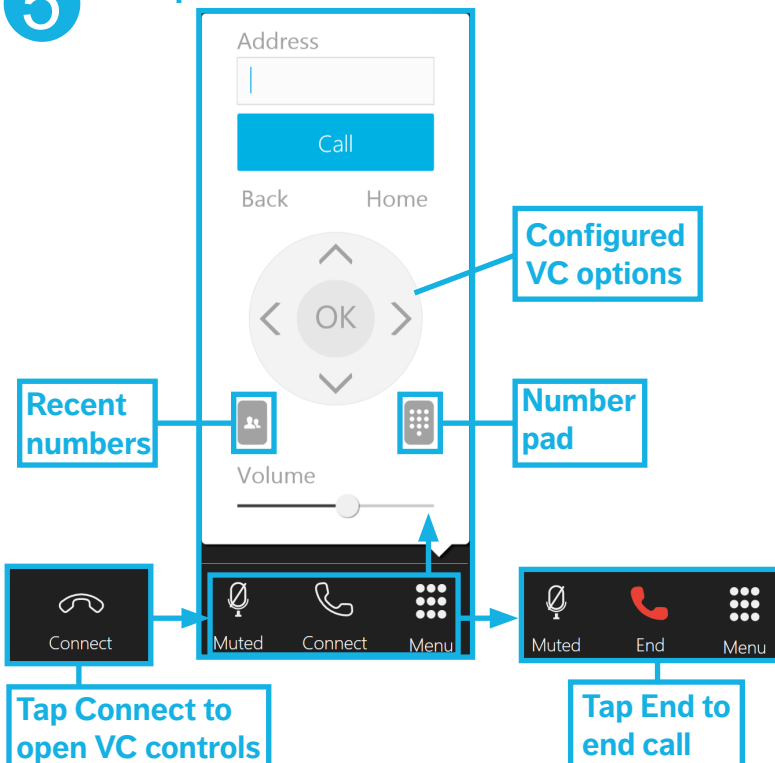

From the call menu,

- Enter the address for the video conference (VC) system you want to call.
- Tap **Call** to place the call.

To answer a call, tap **Accept**.

If you receive a call when on the Welcome screen, Prysm Go opens so you can use audio/video call controls.

### 5 Call Options

### 5

Tap **Connect** to start a call using the on-screen call menu.

lists recent numbers entered from the on-screen call menu.

opens the number pad for passcode entry.

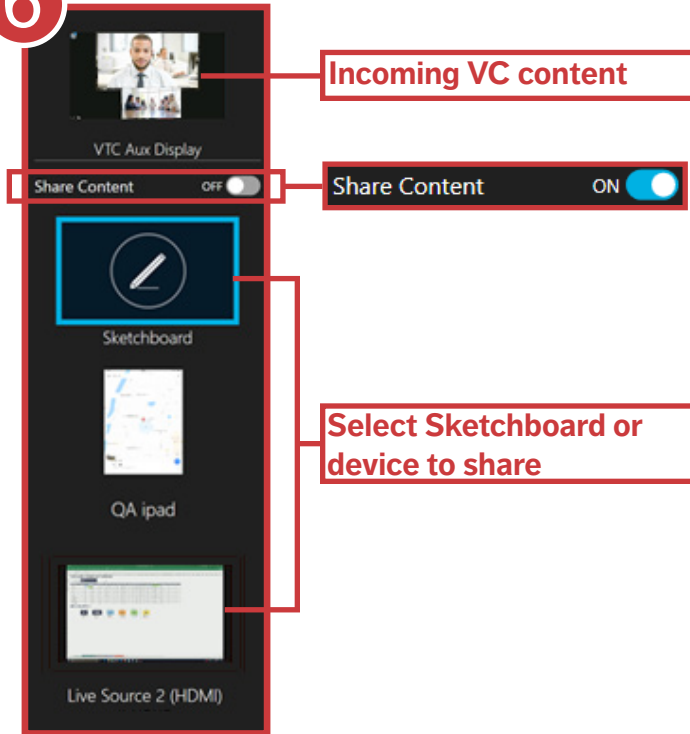

opens and closes the on-screen call menu.

Use arrows to change the camera settings or navigate the codec menu.

## Sharing between Rooms

**Note:** You cannot share content between rooms if your Prysm display is not configured for video conferencing (VC) and you are not part of a call.

### 6 Share Content

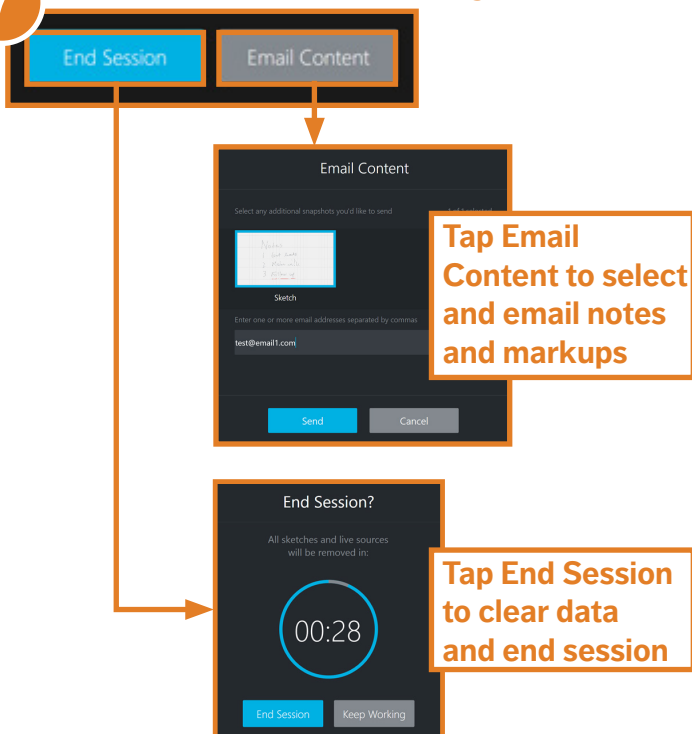

**6** Toggle **Share Content** to the **ON** position to share the display between rooms connected with video conferencing.

The selected Sketchboard or device is shared.

**Note:** To use the video feed to view other participants, turn Share Content off and select the incoming VC content. Turning Share Content off prevents a feedback loop.

## Saving and Exiting

### 7 Email Content before Ending Session

**7** Before ending your session,

- Tap **Email Content** to save your notes as screenshots
- Disconnect any shared devices
- Tap **End Session** to close the session and clear your data. You have 30 seconds to tap **Keep Working** before your session is closed.
